

motorcar::OpenGLContext

```
classDiagram
    class QtWaylandMotorcar {
        OpenGLContext
    }
    class motorcar {
        OpenGLContext
    }
    QtWaylandMotorcar --|> motorcar
```

The diagram illustrates a class inheritance relationship. At the bottom is a gray-shaded box representing the base class, `qtmotorcar::QtWaylandMotorcar`, which contains a member `OpenGLContext`. A blue arrow points upwards from this box to a white box at the top representing the derived class, `motorcar::OpenGLContext`.

qtmotorcar::QtWaylandMotorcar  
OpenGLContext
